

Change the World with Exotopic

Role: Business Consultant / Project Manager

Location: Glasgow, Scotland

Start Date: ASAP

Hours: Permanent Full-time

Compensation: £30k - £35k

Key Words: Consulting; Project Management; Entrepreneurship; STEM;

Criteria:

- **Right to work** in the UK and ability to obtain **security clearance**
- **Batchelor's degree (or higher)** in a STEM subject (alternative equivalent experience may be considered but must be clearly evidenced).
- Demonstrable interest in **Business, Entrepreneurship, Science and Technology**.
- **Willingness to travel** within the UK and internationally.
- Ideally, a full UK **driving licence**.
- Ideally, some level of **professional experience** working in a consulting or engineering environment.

Job Description:

We are seeking a highly motivated fast learner to join our team as a **Business Consultant / Project Manager**. Your primary role will be to support your fellow team members and Exotopic's customers to deliver impactful projects with maximum quality and efficiency within a high tempo environment.

This role requires a team player, who is willing to step-up and take action whilst maintaining high professional standards. You must be an extremely strong communicator, organised and resilient to be successful in this role. You will often be working with significant levels of technical information and knowledgeable individuals, and therefore your ability to rapidly learn and manage complex information is critical.

You will be working on projects across space, quantum and defence sectors, from business acceleration and investment to technical analysis, R&D and operations. You must be willing to take on a variety of roles and gain knowledge and experience across a broad range of tasks. You must be able to work both autonomously for extended periods and as part of a high performance team.

This is an excellent opportunity for an individual looking to accelerate their career in STEM related business.

Key Responsibilities:

- Manage work packages and projects, supporting delivery teams.
- Produce a range of content and deliverables from communications pieces to technical reports.
- Organise and deliver events and workshops.
- Support the wider team and organisation to maintain and improve Exotopic operations.
- Deliver presentations and participate in events and conferences.
- Regularly report progress and provide information to the Exotopic team.
- Support outreach activities.

Company Profile:

Exotopic is a UK-based consultancy and engineering company operating at the intersection of **advanced technology, national capability and real-world delivery**. We work across the space, quantum, defence, security and adjacent deep-tech sectors, supporting organisations to take complex technologies from concept through to operational use.

Our work spans **business acceleration, engineering, systems design, regulation, commercialisation and programme delivery**, with a particular focus on high-assurance and mission-critical environments. Exotopic frequently operates at early- and mid-stage programme maturity, helping customers solve technically challenging problems where requirements are evolving and constraints are real.

We are a **small, fast-growing company** with a strongly hands-on, problem-led culture. Team members are trusted to take ownership, exercise sound judgement and deliver tangible outcomes, while working collaboratively and with discipline in secure and regulated contexts.

How to apply: Send an email with your CV and Covering Letter to recruitment@exotopic.com
